

Bernie is one of many ALLERCEPT® success stories. With very serious allergic reactions to dust mites, the photos below depict the severity of Bernie's condition before treatment and the drastic improvements he made within a 6-month period of time once beginning ALLERCEPT treatments.

Bernie before sedation and shave down.

Bernie after shave down and before treatment started. He was on extensive pain medications and could barely walk without chewing himself.

Bernie after 3 months of treatment with Allercept and looking better!

Bernie after 6 months of ALLERCEPT treatment. Back to feeling like a normal dog again! He is now on year round ALLERCEPT injection treatments.
